

# Why use Glue on Turret Rewinders?

## 100% Glueless **AUTOMATIC** Turret Rewinder

### You Know What A Mess Glue Can Be On Turret Rewinders

The Good news is CTC's line of Glueless start turrets automatically start and tuck multiple web streams on the cores without using glue. Add one of our high speed tail labelers and you have a 100% Glueless solution to your high volume label rewinding needs.

### Don't ask us; ask our customers why they love Glueless turrets:

- Reduced raw materials costs. (No glue required on the core or tail)
- Reduced inventory – no glue to store.
- Reduced energy costs. (No glue pot systems to keep heated)
- Delivery of rolls with 100% useable labels.
- Cleaner, more environmentally green operation.
