# “Spray N Tape” Turret Rewinder

*The Cure for the Common Turret*

**Automatic  
Spray  
Core  
Glue  
System**

**Uses  
Tape to  
Close  
the  
Rolls**

Preliminary

## Standard Features

- Programmable Spray light tach core glue system allows the clean release of the last label off the core.
- Spray can be set up to apply the glue on the cores in virtually any desired pattern.
- Reduced job changeover time by eliminating the need to move glue wheels when jobs change for different web strip widths.
- Unique tail taping system uses ordinary tape
- The length of the closure tape is easily changed
- With the tail taper there are no pre-cut tail labels needed.
- The taper allows the use of virtually 100% of the roll's labels
- Rugged steel plate construction
- Fastest job change over system
- Fast operator learning curve
- Easiest Turret to web up – short web path.
- Touch Screen Operator interface with advanced diagnostics and job memory capabilities
- AC Servo Drives
- Auto inflate/deflate of Air Shafts
- Industry standard PLC Control
- Count in feet or meters
- Press e-stop connection
- Interlocked Safety Guarding
- Precision sized air shafts for best finished roll quality
- Auto swing-back core stop
- Left or right hand models available

## Options

- Automatic roll eject
- Different air shaft diameters
- CE Compliance
- Precise Count/Cut between labels
- Unique tricycle gear caster system
