

[Anvil cylinders]

wink anvil cylinders are the perfect partner for **wink** magnetic cylinders. The extreme accuracy and ultra-fine surface characteristics of every **wink** anvil cylinder make these quality tools of guaranteed excellence.

Base material

- high grade tool steel

Design

- (0) cylinder - standard
- (+/-) cylinder for compensating variations of liners and / or abrasion of cutting tools

Hardness

- 60 +/- 2 HRC

Tolerances

- concentricity < 3 µm
- cylindricity < 3 µm

Measurements

- cylinder diameter maximal: 300 mm
- cylinder width (incl. journal) maximal: 2.000 mm
- special sizes by request

Gear

- Standard 1/8" cp
- all modules available

Application

- for all common machine types
- special designs by request

Delivered including

- anvil cylinder
- gear (standard 1/8 cp)
- transport / storage box
